

Features

Playlist Management

- Pin your favorite playlists to the top.
- Sort playlists alphabetically (A→Z or Z→A).
- Restore YouTube's original playlist order at any time.
- Organize pinned playlists with separators (<hr> or <line>) and section headings (<title>...</title>).

Search

- Instantly filter playlists while typing.
- Case-insensitive and diacritic-insensitive search.
- Reliable playlist title detection.
- Works with both the classic and the latest YouTube playlist dialogs.

User Interface

- Integrated toolbar inside the **“Save to...”** dialog.
- Uses YouTube's localized interface language automatically.
- Draggable playlist dialog.
- Configurable dialog width and height.
- Configurable theme color.
- Full-width **New playlist** button.
- Improved layout, spacing and visual separation.
- Automatically scrolls to playlists that already contain the current video.

Compatibility

- Supports both the classic and the latest YouTube playlist dialogs.
- Automatically adapts to localized (non-English) YouTube interfaces.
- Regularly updated to keep pace with YouTube interface changes.

Accessibility & Usability

- Search field automatically receives keyboard focus.
- Press **Esc** to clear the search without closing the dialog.
- Improved keyboard navigation.
- Better handling of different screen sizes and browser zoom levels.

Reliability

- Automatically restores YouTube's original dialog when closed.
- Stable layout across recent YouTube interface changes.
- Live option updates without reloading the page.
